For Constable—
J. P. MARTIN

TREND IS TOWARD HUGHES.

The trend toward Hughes and republicanism is most noticeable in all parts of the union, according to authoritative report, and the Wilson swing that enthused the federal brigade a couple of weeks has become much of a slump. Locally, there is no discounting the fact that the republican majority for the national ticket and for each man upon the republican county ticket is being added to every day, and men who are in touch with the situation say that the ticket will make a clean sweep in Josephine. Sure it is that the only way a democrat can be elected is through the aid of republican votes, and there is little disposition upon the part of republicans to leave their ticket. This is more pronounced than ever since the tactics of some of the campaigners for the untattered took a turn toward "mud-slinging." Intelligent voters will no longer stand for that kind of work, and it is condemned by men and women of all parties.

SMITH RIVER ROUTE FAVORED.

Engineer F. W. Sonner, in charge of the state highway work in the northern district, arrived in the city on Monday and has since been busily engaged in going over the survey made by his engineers of the highway route which connects the county seat with the state highway from the Mexican line. This is the last link in the chain of highways which incorporates a permanent series of highways from San Diego to the Oregon line and,

with the laterals, makes a complete system of permanent roads serving the heaviest traffic of the state and also connecting the county seats.

In an interview Engineer Sonner said, "I believe that Del Norte should make every effort to see to it that the bond issue carries this fall, because by so doing she is assured of a permanent highway connecting her with the south. It is a truth that Del Norte, with her wealth of scenery and other attractions for the tourist, has been neglected and shunted off the tourist map by the reports sent out by the automobile associations, all of which advise that the roads are practically impassable, and consequently only the most venturesome tourists get above the city of Eureka. I am sure that the proposed highway along the coast will be one of the most picturesque in the whole United States, and will be the equal of any road anywhere. It will attract tourists from all parts of the country and will be one of the biggest assets Del Norte county could possibly have.

"It may well be called 'The Highway Above the Clouds,' and this name is worth thousands of dollars as an advertising asset. Then to it will be the means of developing the rich agricultural lands along the line. All sorts of products will be handled at a cheap transportation rate and the lands will be consequently increased in value. I believe that this is the logical route for the first work with the available bond money, and in the meantime the citizens of the county should get busy and arrange for the building of a permanent highway to the Oregon line. There may be a sufficient amount in the funds available to complete the work through to the line, but the route up Smith river seems to be the logical one for the establishments of a permanent road to the Oregon line, and it could be built at comparatively little cost. If Josephine county wishes to assist and you have funds available out of the forest reserve fund, by all means get busy and build your road at once."—Crescent City Courier.

Prolong the Life of Your Wardrobe

This is a duty you owe yourself if you are anxious to get every dollar's worth of wear out of your clothes. Our method of pressing clothes does not twist, pull and haul them out of shape, but instead we put the natural body shape into the most misused garment, better creases and a uniform finish.

RAILROAD SOLD FOR \$12,000,000

Cleveland, Oct. 30.—The Wheeling & Lake Erie railway was sold at auction today for \$12,000,000 to Wm. R. Begg, of New York, representing Kuhn, Loeb & Company. Begg said Kuhn, Loeb & Company are acting for the holders of \$8,000,000 in three-year notes of the railroad.

This was the tenth time that the road had been offered for sale. The first price fixed for it by the federal court was \$20,000,000. This brought no buyers, and in 1914 the court cut the price to \$18,500,000. In 1916 the price was dropped to \$12,000,000. The purchaser assumed debts of the road amounting to \$18,500,000.

The reorganization plans to call for additional capital of \$9,998,708. Stockholders are to be assessed \$27 a share to provide this capital, which is to be used to meet obligations. In return for the assessment, stockholders will receive six per cent preferred stock.

The Wheeling & Lake Erie railroad has been in existence for 34 years, and during that time has been for 11 years in the hands of a receiver.

ARREDONDO WILL EXPLAIN TROUBLE

Washington, Oct. 30.—Appearance at the state department today of Mexican Ambassador Arredondo to repudiate criticisms of the United States attributed to high officials of the Carranza government was expected to close an incident which threatened to be very troublesome.

Acceptance of such repudiation was assured in advance by state department officials. It was expected to cover a formal statement supposed to have been issued by Luis Cabrera, Carranza's minister of finance, and criticisms contained in interviews to be published this week by the Outlook magazine. The latter's interview quotes Carranza himself, General Gonzalez, General Obregon, and Secretary of Foreign Affairs Aguilar.

Cabrera and Arredondo discussed by telephone yesterday the statements credited to the former. Arredondo then announced a very mild criticism of the United States government's failure to prevent ammunition reaching Villa, expressed by Cabrera in a talk with G. F. Edmunds of the Mexican News bureau, had been made the basis of violent charges embodied in the bureau's statement. The head of the bureau, George F. Weeks, wired Cabrera, disclaiming responsibility for the action.

As for the magazine article, the embassy and the Carranza government, with advance information of the article's contents, have exchanged messages on the subject and the ambassador has been authorized to repudiate the interview in advance.

"The public should be warned," Arredondo said, "that many false statements have appeared and will continue to be published by enemies of the de facto government whose purpose is to bring about intervention and armed conflict between the United States and Mexico."

FRENCH GENERAL HEADS THE ROMANIAN ARMY

Berlin, via Wireless to Sayville, Oct. 30.—The French general, Berthold, has been appointed commander in chief of the Roumanian army, with the Russian general Belayev as his assistant. French newspapers reported today.

TROUBLE BREWS IN S. AMERICA

Buenos Aires, Oct. 30.—A very unpleasant feeling has developed between Brazil and Argentina because of recent charges involving the names of Acting Foreign Minister Sousa-Dantas of Brazil and former Foreign Minister Zeballos of Argentina.

The charge was made in a Buenos Aires newspaper that the Brazilian government had been compelled to pay Sousa-Dantas' gambling debts when he retired as Brazilian minister to Argentina. Sousa-Dantas promptly offered to resign, but the president of Brazil refused to accept the resignation. Later the charges were denied, the denial being supported by evidence to show they were untrue.

The Rio de Janeiro papers asserted that the allegations against Sousa-Dantas were manufactured by an Argentine group headed by Foreign Minister Zeballos that wants war with Brazil.

Zeballos, when foreign minister of Argentina, produced documents which he said showed that Brazil was preparing to attack Argentina. When Colonel Roosevelt was in Argentina, he attracted attention throughout
